

LONDONWASHROOMS

From washroom design to full installation

CORPORATE WASHROOMS

WHY REFURBISH?

1. **Employee Well-being:** Providing a clean, comfortable, and well-maintained washroom environment contributes to the well-being and job satisfaction of staff members. A pleasant washroom experience can positively impact their overall work experience.

2. **Hygiene and Sanitation:** A refurbished staff washroom ensures better hygiene and sanitation standards. Regular maintenance and upgrades help prevent the spread of germs and maintain a healthier workplace.

3. **Productivity and Morale:** A clean and functional washroom can boost employee morale and productivity. When employees have access to a well-equipped washroom, they are more likely to feel valued and cared for by the organization.

4. **Image and Reputation:** The condition of staff washrooms reflects the overall image and reputation of the organization. A well-maintained facility leaves a positive impression on employees and visitors alike.

5. **Compliance and Safety:** Refurbishing staff washrooms may involve updating fixtures and facilities to comply with safety and accessibility regulations. Ensuring compliance helps avoid potential legal issues and ensures a safe working environment.

6. **Cost Efficiency:** Investing in refurbishment can lead to long-term cost savings. Upgraded fixtures and water-saving technologies can reduce water consumption and energy usage, contributing to a more sustainable workplace.

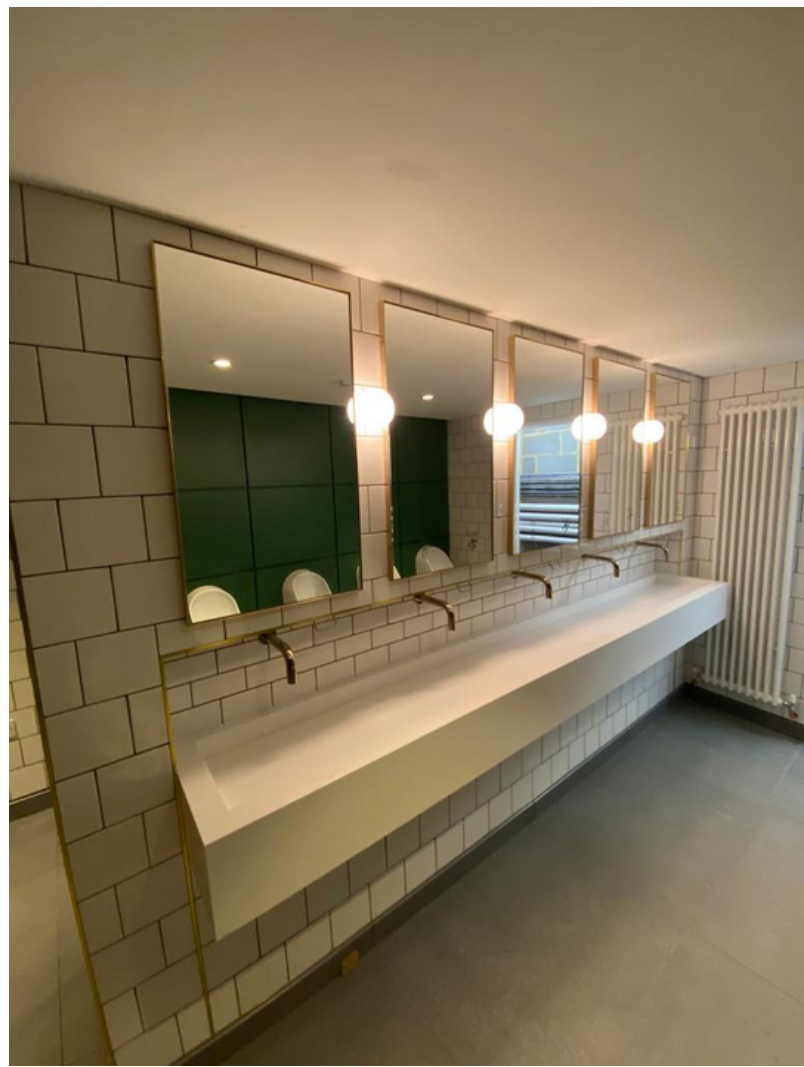

7. Retention and Recruitment: A comfortable and hygienic washroom can be a factor in employee retention and attraction. A positive workplace environment, including well-maintained facilities, can make the organization more appealing to potential hires.

8. Accessibility and Inclusivity: Refurbishing staff washrooms with accessibility in mind ensures that employees with disabilities have equal access to essential facilities, promoting inclusivity in the workplace.

9. Employee Health: A clean and well-maintained washroom can help reduce the spread of germs and illnesses among employees, contributing to a healthier workforce.

10. Longevity of Infrastructure: Regular refurbishment can extend the life of washroom infrastructure, reducing the need for frequent repairs and replacements.

In summary, refurbishing staff washrooms is crucial for promoting employee well-being, maintaining hygiene standards, enhancing workplace image, and ensuring compliance with regulations. It is a valuable investment that can lead to improved productivity, employee satisfaction, and a positive work environment.

We offer a large range of solutions for refurbishing your washrooms. Here is a list of some of the main items we are able to offer in a mixture of ranges from commercial to luxury:

ABOUT US

London Washrooms provides complete Washroom Refurbishment and School Toilet Solutions in London & across the South East for educational, commercial, office, retail, industrial, leisure and luxury environments.

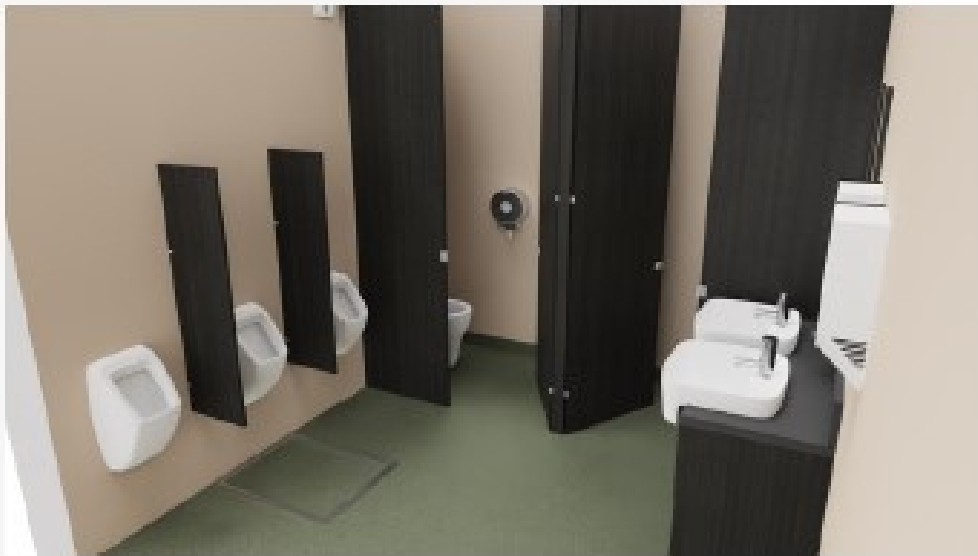

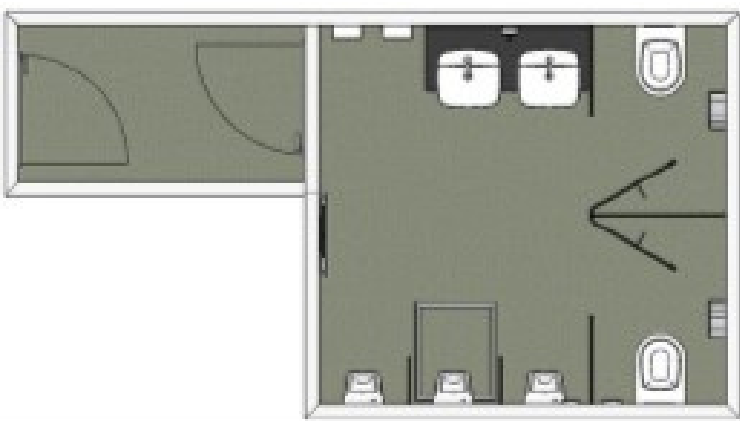

More than simply supplying cubicles, we are a family business with many years of experience offering a complete turn-key service for toilet refurbishments. From start to finish, we take care of the whole washroom refurbishment project.

Each package combines everything you'll need, safely installed by our own qualified and experienced staff.

BESPOKE DESIGN SERVICE

We are proud to deliver a solution that meets your specific needs. As part of our service, we work with you and our team of expert designers to create a space that works. Our new 3D visuals bring this to life so that you can see exactly what you will receive and also be able to communicate effectively with your stakeholders.

HOW WE WORK

We pride ourselves on delivering your perfect washroom or toilet solution from concept to conclusion.

- Initially, we visit our clients on site for a full survey and to collect as much information as possible then discuss options and your requirements.
- Next, we return to you and put together a proposal which includes summary of costings, full breakdown, mood boards and other information. This is delivered and presented to you normally within 2 weeks.
- If our quotation is accepted then once we have received an order we arrange a “pre-start meeting” and arrange start dates.
- Once works commence one of our project managers will be your day to day contact for the duration.
- At the end, we hand over a “turnkey” solution.
